

Mounir Corm

Fund Principal and Managing Partner, Vauban Infrastructure Partners

Mounir Corm, Managing Partner and founding partner of Vauban Infrastructure Partners, was historically Deputy Head of the Mirova General Infrastructure activity. Mounir has been actively working and developing the infrastructure activities since 2008. He has developed an extensive and in-depth knowledge of the core infrastructure market. During the course of his career, Mounir has worked on over €1.5bn of equity investments on a broad range of European core infrastructure assets and was actively involved in the development and fundraising of new funds, helping developing the business to a European scale with an international client base. Mounir has led the team's origination and deal execution efforts in the past years and is also a director on various landmark infrastructure assets and companies (such as Indigo in transportation, Oslofjord in utilities, Arema in social infrastructure) across Europe. Mounir started his career at PwC in advisory for public entities and holds a Master in Public Affairs from Sciences-Po Paris and a Master in Business from HEC.
